PROFESSIONAL SUMMARY

Certified MERN Stack Developer with hands-on experience building production-level web applications using React.js, Next.js, Node.js, MongoDB, and Express.js. Successfully delivered a full POS (Point of Sale) system with a licensing module, used by restaurants, retail shops, and marts. Experienced in REST API integration, component-based architecture, Git version control, and performance optimization. Passionate about writing clean, maintainable code and delivering high-quality user experiences.

WORK EXPERIENCE

POS System Project

2025 – Present

- Developed a production-level Point of Sale (POS) system deployed for restaurants, retail shops, and marts using the Full stack (React.js,) with Electron.js and SQL Database.
- Built and integrated a full Licensing Module — allowing businesses to activate, validate, and manage software licenses for each POS installation.
- Developed responsive UI for product listings, order management, and billing workflows improving usability and reducing order processing time.
- Implemented backend APIs for inventory, billing, and license validation using better-sqlite3
- Collaborated with the team to optimize system performance and ensure cross-platform compatibility via Electron.js.

Frontend Developer | Suffah Tech & Suffah Institute of Technology

2025 – Present

- Converted 3+ existing websites into modern Next.js applications, improving performance scores and page load speed significantly.
- Built reusable component libraries reducing development time across multiple projects.
- Optimized page routing, enhanced UI sections, and ensured fully responsive design across all screen sizes.
- Collaborated with the development team on real-world institutional web projects.

MERN Stack Developer | E-commerce Frontend Completed | Backend Integration

2025 – Present

- Developed a responsive E-commerce application using React.js with modern UI practices.
- Currently progressing in backend development to achieve full-stack integration using (Node.js, Express, MongoDB).

TECHNICAL SKILLS

Expert:	HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Responsive Design, REST API Integration
Intermediate:	Node.js, Express.js, MongoDB, TypeScript, Electron.js, Asynchronous JavaScript
Tools:	Git & GitHub, Postman, VS Code, Chrome DevTools, SQL Database
Practices:	MERN Stack, Component-Based Architecture, Clean Code, Debugging, Performance Optimization

EDUCATION

BS Computer Science (software engineering) | SMIU

Planned / Upcoming

Full Stack Web Development | Suffah Institute of Technology

2024 – 2025

Completed professional certification program in full-stack web development

Pre-Engineering (FSc) | Delhi Govt. College

2022 – 2024

Completed intermediate studies with science focus
